Data Sharing

Introduction

This leaflet explains **why** information is collected about you, the **ways** in which this information may be used and who will be collecting it.

The law requires Doctors to provide some very limited information about certain things. The law says, for example, that Doctors must provide information to local authorities about some infectious diseases, e.g. if you had food poisoning. Very rarely, Doctors may be required to disclose information in order to detect a serious crime. Likewise, a court order can require Doctors to disclose certain information during a court case.

Data Sharing

NHS England aims to link information from all the different places where you receive care, such as hospital, community service and us your GP Surgery. This will allow them to compare the care you received in one area against the care you received in another.

Information will be held in a secure environment called NHS Digital. The role of NHS Digital is to ensure that high quality data is used appropriately to improve patient care. NHS Digital has legal powers to collect and analyse data from all providers of NHS care. They are committed, and legally bound, to the very highest standards of privacy and confidentiality to ensure that your confidential information is protected at all times.

This data can also be used, with permission, for research purposes. If you do not wish to share data for research, you can opt out:

- You can object to information containing data that identifies you from leaving the Practice. This is known as Exclusion on data leaving the practice for any secondary use – type 1 option. This will prevent identifiable information held in your record from being sent to the NHS Digital secure environment. It will also prevent those who have gained special legal approval from using your health information for research.
- You can also object to any information containing data that identifies you from leaving NHS Digital secure environment. This includes information from all places you receive NHS care, such as hospitals. If you object, confidential information will not leave NHS Digital and will not be used, except in very rare circumstances for example in the event of a public health emergency. **For more information visit: <https://digital.nhs.uk>**

Summary Care Record (SCR)

If you decide to have a SCR, it will contain important information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines that you have had. This does not include diagnosis or procedures.

Giving healthcare staff access to this information can prevent mistakes being made when caring for you in an emergency or when your GP practice is closed. Your Summary Care Record will also include your name, address, date of birth and your unique NHS Number to help identify you correctly. If you and your GP decide to include more information it can be added, but only with your express permission.

For more information: Phone 0300 123 3020 or visit www.nhscarerecords.nhs.uk

The Care and Health Information Exchange [CHIE]

The Care and Health Information Exchange (CHIE) is a secure system which shares health and social care information from GP surgeries, hospitals, community and mental health, social services and others. CHIE helps professionals across Hampshire, the Isle of Wight and surrounding areas provide safer and faster treatment for you and your family by:

- Ensuring that you only have to tell your story once
- Reducing delays to your treatment. For example, by reducing the need to repeat blood tests
- Making sure the doctors, nurses and others involved in your care know about your medical history
- Identifying diseases that you might be at increased risk of developing in the future. This can help you take action early to protect your health

For more information please visit <https://chie.org.uk>

Health Check Programme

To ensure you receive the best possible care, we may contact you to invite you to participate in health improvement programmes, for example the NHS Health Check, a cardiovascular disease prevention programme for people aged 40-74 not previously diagnosed with cardiovascular disease. We may invite you for an appointment using a data processor who works entirely under our direction. Nobody outside the healthcare team in the practice will see confidential information about you during the invitation process.

We maintain our legal duty of confidentiality to you at all times. We will only ever use or pass on information about you if others involved in your care have a genuine need for it. We will not disclose your information to third parties without your permission unless there are exceptional circumstances, such as when the health or safety of others is at risk or where the law requires information to be passed on.

You have a right under the General Data Protection Regulations [GDPR] to find out what information we hold about you. This is known as 'the right of subject access'. If you would like to make a subject access request, please do so in writing to the practice manager. If you would like to know more about how we use your information, or if you do not want us to use your information in this way, please see our Fair Processing notice at www.horndeansurgery.co.uk or ask at reception.

Benefits of sharing information

Sharing information can help improve understanding, responses to different treatments and potential solutions. Information will also help to:

- Provide better information to out of hours and emergency services
- Prevent Prescribing of medication to which you may already have an allergy
- Make more informed prescribing decisions about drugs and dosages Avoid unnecessary duplication in prescribing
- Increase clinician confidence when providing care
- Results of investigations, such as X-rays and laboratory tests
- Reduce referrals, ambulance journey admissions, tests, time wastage and visits to healthcare premises
- Find out basic details about you, such as address and next of kind

Do I have a choice?

Yes. You have the right to prevent confidential information about you from being shared or used for any purpose other than providing your care, except in special circumstances. If you do not want information that identifies you to be shared outside this Practice, please complete the sheet enclosed in this leaflet. This will prevent your confidential information being used other than where necessary by law.

Objecting on behalf of others

If you are a carer and have a ***Lasting Power of Attorney for health and welfare*** then you can object on behalf of the patient who lacks capacity. If you do not hold a ***Lasting Power of Attorney*** then you can raise your specific concerns with the patient's GP.

If you have parental responsibility and your child is not able to make an informed decision for themselves, then you can make a decision about information sharing on behalf of your child. If your child is competent then this must be their decision.

Do I need to do anything?

Note your decisions on the enclosed form and return to Reception. You can change your mind at any time, just complete another form.
